

Installation:

1. Mount two brackets to the wall or ceiling, ensuring brackets are installed **2" from each end of the cassette** (fig 1). Install additional brackets (evenly spaced) as needed.
2. Hook the cassette under the front of the mounting brackets and snap in place (fig. 2).

Removal:

Insert a flat screwdriver at the back of the cassette between the spring clip and cassette (fig. 3). Press back on the cassette to release.
